

CAMSO MEX HXD

MINI-
EXCAVATORS

EXTREME RESISTANCE TO SEVERE CONDITIONS

A purpose-built solution for mini-excavators in harsh or extreme heavy-duty applications. Engineered to protect against irreversible damages and maximize your uptime.

TRACTION

CAMSO MEX HXD

PATENTED 3S INTERNAL IRON CORE

- Prevents detracking and minimizes vibrations for better ride quality and lower maintenance cost

PREMIUM RUBBER COMPOUND AND EXTRA THICK CARCASS

- Improves damage resistance and promotes even tread wear for the longest track life

HIGH-TENSILE, RUBBER SEALED STEEL CABLES PROTECTED BY HEAVY-DUTY CARCASS AND TREAD

- Resists carcass punctures and cable corrosion to extend service life

CURBSHIELD TECHNOLOGY WITH HEAVY-DUTY CARCASS

- Maximizes service life prior to track degradation process triggered by edge cutting leading to iron core corrosion and lower maintenance cost

TRACKS FOR MINI-EXCAVATORS

TREAD WEAR TEST (150 hours)

Camsco tracks are designed with much thicker tread than most OEM tracks. Maintaining more rubber around the carcass offers more protection on carcass puncture and edge cutting. This all translates in longer service life and less downtime. The end result of this test is: **Camsco MEX HXD offers 30% more service life.**

VIBRATION (m/s²)

Throughout the entire test, the vibration level was 42% lower with the Camsco tracks than the OEM quality track regardless the speed and the direction.
